**CHRYSsafidis offers a full range of products and technical support for the control and efficient handling of STEAM. Our engineers are specially trained abroad and undertake, without any obligation to the customer, the general preliminary design of customer's installation. They perform free surveys of steam systems and propose solutions that will decrease the energy consumption and increase the productivity and safety of steam installations. CHRYSsafidis represents some of the most important quality manufacturers in the steam sector.**

**Steel and stainless steel pipes - welded and seamless**

**Steel and stainless steel fittings - welded & threaded**

**Flanges**

**Piston valves  
KLINGER**

**Gaskets - asbestos free & spiral wound  
KLINGER**

**Steam traps  
SPIRAX SARCO**

**Globe valves  
SPIRAX SARCO - ZETKAMA**

**Steam trap control systems  
SPIRAX SARCO**

**Control valves  
SPIRAX SARCO**

**Ball Valves  
KLINGER**

**Pump traps - Condensate pumps  
SPIRAX SARCO**

**Safety relief valves  
SPIRAX SARCO - THIES**

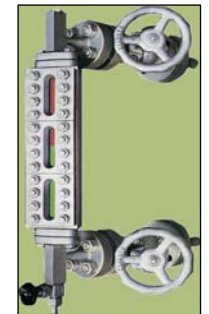

**Heat exchangers  
SPIRAX SARCO**

**Automatic blow down systems  
SPIRAX SARCO**

**Level gauges  
KLINGER**

**Level control systems  
SPIRAX SARCO -  
McDONNELL&MILLER**

**Pressure reducing valves  
SPIRAX SARCO**

**Steam meters  
SPIRAX SARCO**

**Butterfly valves  
EBRO - CRANE**

**Expansion joints  
BERGHOEFFER**
