Note: maximum working temperature 110° C (230° F)  
recommended for mounting with Grinnell Rigid couplings

General notes: It is the Designer's responsibility to select products suitable for the intended service and to ensure that pressure ratings and performance data is not exceeded. Always read and understand the installation constructions. Never remove any piping components nor correct or modify any piping deficiencies without first depressurizing and draining the system. Material and seat selection should be verified to be compatible for the specific application.

## MATERIAL SPECIFICATION

**Body:** Ductile iron - Epoxy Coated  
**Disc:** Ductile iron / EPDM

**Shaft:** Stainless Steel
